Professional Summary

UI/UX Designer & Web Developer with 4+ years of experience in UI/UX design, website design, and digital product design, with 1+ year of hands-on experience using AI-assisted tools and workflows across design and development. I leverage AI to accelerate ideation, prototyping, design iteration, and development while maintaining usability, design consistency, and established development standards.

Experienced in bridging the gap between design and development to deliver efficient, production-ready digital experiences without disrupting existing development workflows. Also experienced in guiding team members on the practical use of AI tools in their daily work, managing projects, coordinating with clients and stakeholders, understanding requirements, and supporting projects from concept through design and development while maintaining quality and delivery standards.

Core Skills

UI/UX & Product Design

User Research, User Flows, Information Architecture, Wireframing, Prototyping, Usability Testing, Interaction Design, Responsive Design, Accessibility Basics, Design Systems, Dashboard UX, SaaS UX, Mobile App UX, E-commerce UX, Conversion-Focused Design

Product Thinking

Problem Solving, Feature Prioritization, User Pain Point Analysis, Business Goal Alignment, Product Metrics Awareness, Retention Thinking, Conversion Thinking, End to End Product Design.

Web Development

HTML, CSS, Responsive Web Design, UI Implementation, Design-to-Development Handoff, Frontend Collaboration, AI-Assisted Web Development

AI-Assisted Design & Development

AI Tools, AI-Assisted Design, AI-Assisted Development, AI-Powered Ideation, Rapid Prototyping, Design Iteration, Workflow Optimization, AI Tool Adoption, Team AI Training

Project & Client Management

Project Coordination, Client Communication, Requirement Analysis, Stakeholder Management, Project Planning, Task Coordination, Feedback Management, Quality Control, Agile & Sprint Workflow

Tools

Design & Collaboration:

Figma, Figma Make, Figma Agent, Adobe XD, Notion, Miro etc.

Development & AI:

VS Code, Cursor, Antigravity, ChatGPT, AI/LLM Tools.

Professional Experience

UI/UX Designer & Junior Developer

Unizap.ai (NDHGO), Kolkata | May 2023 – Present

- Designed 20+ responsive e-commerce websites for B2B, B2C, and D2C businesses.
- Designed scalable SaaS interfaces, reusable UI components, and design systems.
- Created user flows, operational interfaces, and conversion-focused user journeys aligned with business requirements.
- Collaborated closely with developers and product managers to improve design-to-development handoff and maintain implementation quality.

- Contributed to frontend implementation using HTML and CSS.
- Used AI tools and rapid prototyping methods to accelerate ideation, design iteration, and development workflows.
- Guided team members on practical AI tool usage to improve efficiency in daily design and development tasks.
- Helped bridge the gap between design and development by considering technical constraints during the design process.
- Participated in sprint planning, design reviews, stakeholder discussions, and feedback cycles.
- Coordinated project requirements, client feedback, and delivery activities with clients and internal teams.
- Balanced user needs, business objectives, usability, design consistency, and development requirements throughout projects.

UI/UX Designer

LOCOFF, Mumbai | June 2022 – March 2023

- Led UX and UI design for marketplace, restaurant, and e-commerce products.
- Designed responsive web and mobile experiences focused on usability and business objectives.
- Created onboarding flows, and conversion-oriented interfaces.
- Collaborated with developers and stakeholders throughout agile design and development workflows.
- Delivered brand-consistent visual systems and user-friendly layouts.
- Translated business requirements and user needs into practical interface and experience solutions.

Selected Projects

SaaS Dashboard

Designed scalable dashboard experiences for catalog management, banners, operations, and reporting, focusing on information architecture, reusable UI components, usability, and efficient task completion.

E-commerce Website Design & Development

Designed 20+ responsive e-commerce websites for B2B, B2C, and D2C businesses, focusing on user experience, responsive design, conversion optimization, and collaboration with developers through implementation.

Restaurant OS

Designed UX/UI for a restaurant operations platform, focusing on streamlined workflows, clear information architecture, operational efficiency, and task completion for restaurant teams.

Education Platform Dashboard

Created dashboard UX for admissions, online fee tracking, staff management, and reporting workflows, with a focus on clear navigation and efficient administrative operations.

Education

Higher Secondary

Self-Taught UI/UX Designer & Web Developer

Developed practical skills through hands-on projects, online learning, design bootcamps, YouTube, industry blogs, and continuous self-directed learning.
